GGOF Portfolio Brief — Wednesday, October 28, 2026

Covers Tue Oct 27 through Wed Oct 28 morning. ***Source caveat:*** *search surfaced very little dated Oct 27–28 for individual names, and page fetches failed (DNS errors), so nearly everything rests on search-result summaries rather than primary filings. "QUIET" means nothing found in the window, not that nothing happened. Items marked (unverified) rest on one source, a snippet, an undated page or conflicting sources. Every factual claim carries a link where one was found.*

1. Top of the stack

EUR/CRML schemes are approved and effective; record date is tomorrow. The WA Supreme Court approved both the share and option schemes on Oct 26 (Manila Times/GlobeNewswire, Kalkine, Listcorp), and the court orders were lodged with ASIC so the schemes are effective (StockTitan; snippet undated, probably Oct 27). Record date Oct 29, implementation Nov 5, new CRML shares trade on Nasdaq and EUR is delisted from the ASX Nov 6. Sources now state a flat **0.045** CRML per EUR share, which conflicts with yesterday's floating 0.025–0.045 description; verify against the scheme booklet. EUR is probably already suspended (inference). The independent expert called the share scheme "reasonable but not fair" (Lawyer Mag). EULIF is the OTC ADR; I did not find how the ADR is treated, so check with the broker.

Today is the pivot: FOMC at 2:00pm ET, then Microsoft and Alphabet after the close. I found no result for the decision. CME FedWatch priced about 92% for no change (unlinked search summary; yesterday ~90%). A CNBC snippet gives the policy range as 3.75–4.00% and a "substantial chance" of a December hike without a number (CNBC Oct 27). That range sits oddly against June and July holds at 3.50–3.75% (Fox Business, WAFB); a September hike by Chair Warsh is consistent with it (Kitco Sep 16) but I did not verify the level. Tuesday's 10-year was about 4.999% and the 30-year about 5.31% (unlinked summary; Monday's 10-year is quoted at 4.966% by one source versus 4.986% yesterday). Microsoft is expected at ~$90.6bn revenue with Azure ~+44.8%. Futures were mixed this morning (FXStreet). Review hedges before 2pm.

Equities extended the rebound on chip-led AI strength. On Tuesday the Dow rose 0.03% to 52,377.57, the S&P 500 0.60% to 7,722.60 and the Nasdaq Composite 1.18% (about 26,478 by my arithmetic from Monday's close; unsourced level). Most S&P constituents fell; gains were concentrated in tech led by chipmakers (Chartmill, Cryptonomist). One wrap attributes it to a Broadcom bank financing tied to Anthropic; the "$63bn" figure matched no sourced number, and I could not find a public Anthropic S-1, only reports of a confidential filing around Jun 1 and an October listing plan (5paisa, DealStreetAsia). Treat the trigger as unverified.

Silver hit a fresh 2026 low; gold holds $4,000. Silver traded about $52.75 (−2%), a new year-to-date low below $53 (Forbes, Kitco AM). Gold ranged ~$4,000–4,058 (Kitco/Reuters, Kitco PM); gold/silver ratio near 75 (USAGold). Negative for SLV, SIL and VZLA, and a hawkish Fed today is the added risk.

SK hynix Q3: date still unsettled (Oct 28 vs 29). One German source says Oct 28 (boerse-global); a Maeil Business report says Oct 29 (mt.co.kr). Results may land today or tomorrow; confirm on SK hynix IR. Consensus operating profit ~KRW 77–80tn (IBK KRW 79.6tn, unverified; nocutnews KRW 77.1tn). The same German outlet carries a headline "Dalian approval blown?" that I saw only as a title; worth checking. Read-through for SK Inc, Samsung Electronics, SMH, ALGM and RS Technologies. Also: oil eased, with Brent ~$113.88 on Oct 27 (−1.7%) on Qatari/Omani mediation over Hormuz (Nation Thailand, single source).

2. What matters, by group

Group 1 — Rails / shipping / financials

- **CEC GY (Ceconomy) — MATTERS.** Preliminary FY25/26 out Oct 27: sales ~EUR 24.0bn (+5.3%), adjusted EBIT ~EUR 515m (+27%) versus the EUR 500m target; shares reportedly ended lower regardless (EuropaWire, finanzen.net). For an offer-pinned stock the beat is minor; the EC FSR decision is what moves it. The Nov 4 deadline traces to one Reuters chain of Oct 2 (Retail Insight Network, TechNode); no Commission decision found; Austria FDI unchanged. Full results Dec 14.

- **ZIM US — MATTERS (slow burn).** The Israeli Government Companies Authority halt dates from late September, not this week: it told ZIM around Sept 29 it was closing review of the original special-share application, with a revised proposal due about Oct 6; ZIM closed $29.20 on Oct 6, ~20% below the $35 offer (Seatrade, Stocktwits). Outside date Feb 2027, extendable to Jun 2027 if only GCA approval remains. No news on a refiling. Q3 date unannounced; a notice may come this week (inference from last year's Oct 30 notice).
- **BHF US — QUIET (live).** No report of Delaware, New York or Massachusetts approval; the Q2 10-Q lists all three outstanding and confirms the merger agreement auto-extends to **Dec 6, 2026** (10-Q). That removes yesterday's "third-party only" caveat. Q3 ~Nov 5–6 is an inference.
- **UNP / NSC — MATTERS (procedural), correcting yesterday.** The STB accepted the application May 28 but held it in abeyance; it lifted abeyance and set a procedural schedule Aug 18 (STB PR 26-21) and on Sept 18 denied the BNSF, CSX and shipper motions for summary denial (STB PR 26-23). One summary says the formal filing window runs Oct 29, 2026 to Jan 29, 2027 (Railway News); I did not open the STB release, so verify. BNSF opposes. Q3 already reported.
- **AAUC CN — QUIET.** Q3 likely Nov 5, unconfirmed (estimates Nov 4–6; Earnings Whispers). Could not verify that Zijin's C$295m share purchase closed. Watchlist note on the Zijin takeover is stale.
- **ALTI US — QUIET.** Q3 date unannounced; last year's was announced Oct 13 for Nov 10.

Group 2 — Luxury / consumer / Korea / autos / energy / alternatives

Real news / live

- **EULIF US / CRML — MATTERS, time-critical.** See §1 and §4.
- **000660 KS (SK hynix) — MATTERS, Oct 28 or 29.** See §1. Q2 baseline: operating profit KRW 60.54tn on revenue KRW 79.32tn, revenue below consensus (Blocks & Files). A KRW 40tn buyback is referenced (inews24).
- **005930 KS (Samsung Electronics) — MATTERS.** YTN puts the full Q3 on **Oct 29**, not Oct 30 (YTN; snippet only). Preliminary Q3 operating profit ~KRW 107.5tn on ~KRW 195tn sales already out. August plan: KRW 90–110tn 2026 shareholder return, ~KRW 30tn of Q3 cash dividends, exact amount at a late-October board meeting, the rest in January; the 2024–26 policy ends this year, so a 2027 policy is pending (Samsung Newsroom, mtn).
- **PUIG SM — MATTERS, today.** Capital Markets Day with the new strategic plan is today in Madrid, rescheduled after the Estée Lauder merger talks ended (FashionUnited). No coverage of the event yet. This also reverses yesterday's "Puig 9M not found": Q3 sales were EUR 1.391bn (+5.6–6.1% like-for-like; sources differ) and 9M like-for-like +4.8% to ~EUR 3.745bn, makeup ~+12%, APAC ~+17.9% (Moodie Davitt, The Impression).
- **8TRA GY (Traton) — MATTERS, 9M statement due today.** One undated secondary report gives 9M adjusted operating profit EUR 2.3bn (+13%) and International Motors adjusted ROS 1.7% versus 1.6% (Global Banking & Finance); unverified until the release. Q3 unit sales +10% to 78,900 are already out (VW Group). H1 outlook was group adjusted ROS 6.3–7.3% (Traton H1).
- **VOW GY / P911 GY — MATTERS.** A non-cash impairment of ~EUR 6bn on goodwill allocated to the Porsche segment is flagged for VW's Q3 (brandiconimage; weak September source, confirm in VW disclosures). Q3 deliveries −14.3% to 1.89m (RTT); guidance operating ROS 4.0–5.5%. VW Q3 date unconfirmed (Oct 29 per yesterday; 2025 precedent Oct 30). Porsche AG: a MarketScreener calendar lists Q3 on Oct 26 (calendar) but I found no results; unverified.
- **GENT MK (Genting Berhad) — MATTERS (negative), no new terms.** RM1.25bn renounceable rights issue: ~RM800m for maturing borrowings, ~RM280m interest/financing costs (The Star); illustrative price RM1.30 (The Edge); Lim family/Kien Huat irrevocably take up 45.1%; completion targeted Q1 2027. No EGM date; final price and ratio are set after it.
- **ENI IM / TTE FP / REP SM — MATTERS (oil read-through).** Eni reported Oct 23 (EUR 0.46 extraordinary dividend, buyback to EUR 3.8bn). TotalEnergies' Oct 15 trading statement: hydrocarbon output 2.45–2.50 Mboe/d, LNG $12.28/MMBtu (+20.4%), refining/chemicals cash flow up ~$2bn QoQ (Business Wire, RTT); full Q3 probably Oct 29, unconfirmed. Repsol Q3 due Oct 29 (DailyForex); an analyst-estimated third buyback of EUR 950m is unverified; Q2 adjusted net income EUR 1,838m (Repsol).
- **MC FP / CDI FP — MATTERS but not new.** LVMH Q3 organic +1% (Q2 +3%), 9M +2% on EUR 57.1bn; Fashion & Leather −5%, China weaker (LVMH, FashionUnited). Nothing Oct 27–28. Dior is the holdco read-through.
- **MF FP (Wendel) — Oct 22 news, now stale.** NAV EUR 167.0/share (+5.1% vs June), cash ~EUR 1.5bn after Stahl proceeds (EUR 1.14bn, closed Oct 1), LTV 9.5%; deputy CEO David Darmon leaves Nov 30 (Idéal Investisseur, Morningstar, MFN).

- **PGHN SW — NOISE/QUIET.** Evergreen SICAV (Global Value) redemption requests capped at 9.8% (headline only; Börse Express). AuM USD 186bn at Jun 30 (Deutsche Börse).
- **QCQ6 / copper — QUIET.** No Oct 27 COMEX price found; last points ~$6.6/lb (Oct 7), record COMEX stocks ~711,609t (Farmonaut, weak). August contract is past delivery.

Quiet names (status lines)

- **RACE IM** — Q3 **Nov 3**, confirmed by Ferrari's calendar.
- **PSH LN / PSUS US** — portfolio reviews Nov 2 (listing page only, StreetInsider). Analyst downgrades found (Citi, BofA) concern Pershing Square Inc. (PS), a different entity.
- **IPAR US / ITP FP** — Q3 date unconfirmed: Nov 4 or Nov 5 after close (Earnings Whispers, Unusual Whales).
- **COTY US** — date conflict: Nov 10 pre-open per TipRanks (Swiss line), Nov 18 per Earnings Whispers, Nov 4–5 projected; check Coty IR (TipRanks, Earnings Whispers).
- **9433 JP / 9432 JP** — H1 dates not found; early November likely (inference; KDDI Nov 6 and NTT Nov 4 last year).
- **373220 KS (LGES)** — final Q3 Nov 3 (per yesterday); ITC case 337-TA-1518 outcome not found. **051910 KS, 034730 KS, 028260 KS** — QUIET.
- **GENS SP, 6707 JP (Sanken, H1 early/mid Nov), EXO NA, BVI FP (Q3 Oct 21 per yesterday), BX US (Q3 DE $1,715.7m, record date Nov 2 per yesterday)** — QUIET.
- **ALGM US** — FQ2 Oct 29 pre-open and $265–275m guide are from yesterday's brief; I could not confirm the date (search returned only 2025's Oct 30).
- **NPN SJ / PRX NA / INDUA SS / IPRV LN / MSE FP** — QUIET; searches returned nothing usable or were not run. Not verified either way.

Group 3 — Small/mid-cap & special situations

- **SLV / SIL / VZLA — MATTERS.** See §1 (silver at a year low). Gold and silver fell hard Friday Oct 23 (gold $4,024, silver $54.58, −5.9%; ISA Bullion). No VZLA-specific news in October.
- **GPH CN / GPH-WA CN — MATTERS (status).** The Army Corps moved the review to a full EIS; the company says 2029 startup is not delayed (Barchart). The Sept 29 FAST-41 target (Northern Miner) is superseded: one German outlet says the dashboard now projects September 2027 (Börse Express, unverified). **Warrant series still unidentified.**
- **NAK US** — QUIET; Pebble ruling pending since the Jun 25 argument (Börse Express). Binary and undated.
- **DDL US** — QUIET, but a Feb 2026 filing snippet reports a definitive agreement to sell Dingdong's China business to Meituan (SEC). Status unverified; could change the thesis. Q3 likely mid-November (last year Nov 12).
- **LIO LN** — Q3 Nov 4 (Directors Talk).
- **IPX LN** — QUIET; next results Dec 2 per TipRanks (unverified); ongoing buyback.
- **SMH LN / 3445 JP** — no verified SOX close for Oct 27 (an undated Investing.com page showing −4.25% cannot be tied to a date). Tuesday's chip-led rally is the better guide.
- **7912 JP** — QUIET; Kyowa Pharma consolidation planned Oct 2026 (DNP). **7911 JP** — H1 possibly Nov 6 (unconfirmed).
- **6425 JP** — QUIET; Okada Manila GGR −14.6% in Q2, S&P outlook Negative (Sigma, snippet).
- **BUKA IJ, CDZI US (Q3 mid-Nov, inference), DIDIY US, JUP LN** — QUIET.
- **EP059897 Pfd — UNRESOLVED.** Exact-string search returned only unrelated hits. Not guessed. Owner to supply ISIN/issuer.

Group 4 — Futures / macro hedges

All dated futures on the watchlist are expired or past delivery (see §4); levels below are cash proxies.

- **NQ / ES** — MATTERS. S&P 7,722.60, Nasdaq Composite +1.18% (see §1). No Nasdaq-100 or December futures quotes found.
- **Z (FTSE 100)** — no Oct 27 close found.
- **WNU6 / IEF** — MATTERS. 10-year ~4.999%, 30-year ~5.31% (unlinked). No IEF or WNZ6 price found.
- **UXQ6 / uranium** — see §4. Spot ~$89.6–89.9/lb (Cameco Sept month-end $89.63).

- **HYG** — no data found.
- **YBYU6** — still unidentified. Root "YBY" matches no known contract; "U6" implies September 2026, already expired.

Week in context. Oct 16 Nasdaq ~−2% on AI-financing worries; Oct 22–23 AI selloff with oil at $113–117 and the 10-year at 5%; Fri Oct 23 gold −2.8%, silver −5.9%; Oct 26–27 rebound (S&P 7,623.68 → 7,676.77 → 7,722.60). Oil plus a 5% 10-year is the headwind, AI capex is the trigger, and this week stacks the Fed, four megacap prints and the Nov 3 midterms.

Group 5 — US large-cap core

- **LLY US — MATTERS Thu Oct 29** (pre-open). Consensus EPS conflicts badly: $7.03 (S&P Global), $9.83 (other), versus ~$5.38–5.70 in yesterday's brief; revenue ~$22.5bn, options imply ~±8.5% (24/7 Wall St). Judge on underlying figures.
- **CAT US — MATTERS Thu Oct 29** (~8:00am ET, tentative per StockHub; EPS consensus $6.90, unverified).
- **MAGS US — MATTERS.** MSFT and GOOGL report today after the close; Alphabet is ~20% below its May peak. Amazon: Oct 29 after close per yesterday (not re-confirmed). Apple: Oct 29 per one tracker versus Nov 2 yesterday — unresolved.
- **PLTR US — MATTERS, date unconfirmed** (est. Nov 2 after close).
- **COST / WMT / TPR / IBKR** — QUIET; no dated news. One undated snippet showing retailers down on a "sixth day" of Middle East conflict could not be dated and is not used.

---

3. Probably noise

- **Ceconomy's preliminary beat** — the stock is pinned to the JD.com offer; only the EC decision matters.
- **"$63bn Anthropic/Broadcom financing" market-wrap detail** — matched no sourced figure; don't repeat it.
- **Conflicting yield prints (4.966% / 4.986% / 4.999%)** — rounding and source differences, not a trend.
- **Brent settle spread ($113.88 Tuesday vs $115.81 Monday vs $109.11 old Yahoo item)** — different days and contract months.
- **Pershing Square Inc. (PS) analyst downgrades** — a different entity from PSH and PSUS.
- **Wendel NAV, LVMH Q3, Eni Q3** — all out and priced.
- **Samsung and LGES preliminary Q3** — already out.
- **Partners Group SICAV redemption cap** — evergreen-product headline, not a listed-equity event.

5. Follow-up questions to investigate

1. **EUR/CRML:** Is the ratio flat 0.045 or floating with a floor and cap? When exactly was EUR suspended, and how is the EULIF ADR treated?
2. **FOMC:** What did the Fed do, what is the policy range (3.50–3.75% or 3.75–4.00%), and what is the December hike probability afterwards? How do WNZ6 and IEF react?
3. **SK hynix:** Oct 28 or 29? What is the shareholder-return news, and what is the "Dalian approval" headline about?
4. **UXV6:** True expiry date and whether a position needs rolling into November.
5. **Megacap prints:** Do Microsoft and Alphabet capex guides push MAGS and PLTR? Is there a public Anthropic S-1, and what does it do to the AI complex?
6. **Silver:** With a fresh year low under $53, how exposed are SLV, SIL and VZLA to a hawkish Fed?
7. **Puig:** What targets did the Capital Markets Day set?
8. **Volkswagen/Porsche:** Size and timing of the Porsche goodwill impairment; has Porsche AG already reported Q3?
9. **Ceconomy:** Is Nov 4 the real EC deadline, and has Austria cleared?
10. **UNP/NSC:** Does the STB filing window actually open Oct 29, and what does BNSF's opposition imply for timing?
11. **Dingdong:** Did the Meituan China-business sale complete, and what is left in DDL?
12. **Lilly:** Which consensus EPS ($5.4, $7.0 or $9.8) is right, given acquired-project charges?
13. **Unresolved identifiers:** EP059897 Pfd, YBYU6, GPH-WA series.
